

HYDRO GROW SCHEDULE

One week at a time.

SOFT / RO WATER

ALL DOSES IN ML PER LITRE

pH 5.8–6.2 · ALL WEEKS

01 GROW · WK 1 HYDRO GROW 5 ROOT BOOST 0.5–1 EC 1.4–1.6 pH 5.8–6.2 HUMIDITY 60–70% TEMP 22–26°C LIGHT 18 HRS/DAY	02 GROW · WK 2 HYDRO GROW 5 ROOT BOOST 0.5–1 EC 1.4–1.6 pH 5.8–6.2 HUMIDITY 60–70% TEMP 22–26°C LIGHT 18 HRS/DAY	03 GROW · WK 3 HYDRO GROW 5 ROOT BOOST 0.5–1 EC 1.4–1.6 pH 5.8–6.2 HUMIDITY 60–70% TEMP 22–26°C LIGHT 18 HRS/DAY	04 GROW · WK 4 HYDRO GROW 6 ROOT BOOST 0.5–1 EC 1.8–2.0 pH 5.8–6.2 HUMIDITY 60–70% TEMP 22–26°C LIGHT 18 HRS/DAY	05 BLOOM · WK 1 HYDRO GROW 6 FLOWER BOOST 0.5–1 EC 1.8–2.0 pH 5.8–6.2 HUMIDITY 45–60% TEMP 22–26°C LIGHT 12 HRS/DAY	06 BLOOM · WK 2 HYDRO BLOOM 6 TONIC 0.5 FLOWER BOOST 0.5–1 EC 1.8–2.0 pH 5.8–6.2 HUMIDITY 45–60% TEMP 22–26°C LIGHT 12 HRS/DAY	07 BLOOM · WK 3 HYDRO BLOOM 6 TONIC 0.5 FLOWER BOOST 0.5–1 EC 1.8–2.0 pH 5.8–6.2 HUMIDITY 45–60% TEMP 22–26°C LIGHT 12 HRS/DAY
08 BLOOM · WK 4 HYDRO BLOOM 5 TONIC 0.5 PK 1 FLOWER BOOST 0.5–1 EC 2.0–2.2 pH 5.8–6.2 HUMIDITY 45–60% TEMP 22–26°C LIGHT 12 HRS/DAY	09 BLOOM · WK 5 HYDRO BLOOM 5 TONIC 0.5 PK 1 FLOWER BOOST 0.5–1 EC 2.0–2.2 pH 5.8–6.2 HUMIDITY 40–50% TEMP 20–24°C LIGHT 12 HRS/DAY	10 BLOOM · WK 6 HYDRO BLOOM 5 TONIC 0.5 PK 1 EC 2.0–2.2 pH 5.8–6.2 HUMIDITY 40–50% TEMP 20–24°C LIGHT 12 HRS/DAY	11 BLOOM · WK 7 HYDRO BLOOM 5 PK 1 EC 2.0–2.2 pH 5.8–6.2 HUMIDITY 40–50% TEMP 20–24°C LIGHT 12 HRS/DAY	12 BLOOM · WK 8 HYDRO BLOOM 5 PK 1 EC 2.0–2.2 pH 5.8–6.2 HUMIDITY 40–50% TEMP 20–24°C LIGHT 12 HRS/DAY	13 BLOOM · WK 9 HYDRO BLOOM 1 EC 2.0–2.2 pH 5.8–6.2 HUMIDITY 40–50% TEMP 20–24°C LIGHT 12 HRS/DAY	

USING THIS SCHEDULE

THE ULTIMATE SOLUTION

Most nutrients come as two bottles, A and B, that can't be mixed and have to be added separately. IONIC is one. Add it to the tank at the amounts overleaf, in millilitres per litre of water, stir, and the mix is ready. The pH holds steady, so it should need little adjustment.

GOOD PRACTICE

- ⚙ Add products to the tank one at a time, stirring between each. Never mix concentrates straight from the bottle.
- ⚙ Keep the tank covered. Light in stored solution eventually means algae.
- ⚙ On hard water? Use the IONIC Hard Water range and its own schedule instead.
- ⚙ Measure every dose. Eyeballing is where most feed problems start.

THE SYSTEM

HYDRO GROW

Strong support for vegetative growth. The K to N ratio set for the vegetative stage.

HYDRO BLOOM

Precisely formulated to support growth, flowering and yield. The ratio shifts as the plant turns.

TONIC

Restores vigour and corrects deficiency. Calcium and magnesium, plus chelated iron, amino acids and seaweed.

PK

Phosphorus and potassium at 14:15, for the hungriest weeks. Fortified with iron.

ROOT BOOST

Plant-based root stimulator that ignites rapid root growth in early establishment. 100% organic.

FLOWER BOOST

Plant-based bloom stimulator built on triacontanol. Fuels explosive blooms, yield and flavour.
